TO OFFENDER

Close your eyes, take a few deep breaths, and try to get honest with yourself. Did you get excited when you saw that ad of a SUV in the remote wilderness? Did you want to sue the manufacturer for FALSE advertising when you started driving it to the shopping center? Are you REALLY going to take that shiny new \$40,000 SUV off road? We made this ticket because we live in the city, and so do you, and there's something really wrong about the way the SUV is changing our streets and the air we breathe. This is not a militarized zone! Your truck contributes to a hostile and unhealthy environment for everyone. Think about it! Why not use it to carpool? Try taking the subway!! Find out more at www.suv.org! After all, there's nothing in the american dream about sitting in traffic in your car by yourself for hours on end every day. These thoughts brought to you by: Ant, JTStudios & MissMira

VIOLATION

VIOLATION		U.S.A.			
TO:	SUV DRIVER				
FORD EXCURSION	LINCOLN NAVIGATOR	DODGE DURANGO	TOYOTA 4RUNNER	JEEP CHEROKEE	MERCEDEZ M-CLASS
10.8mpg	12mpg	11.2mpg	17.5mpg	12.7mpg	12.9mpg
SUBARU LEGACY	TOYOTA COROLLA	FORD FOCUS	CHEVY PRISM	TOYOTA PRIUS	HONDA INSIGHT
24mpg	30mpg	30.5mpg	31mpg	52mpg	65mpg
TIME TO:	BIKE TO WORK !		AM PM	ALSO	CAR POOL !

- "The choice of vehicle you drive has a greater effect on the environment than any other choice you make as a consumer" - Union of Concerned Scientists
- Federal law permits SUVs to waste 33% (on average!) more gas than passenger cars.
- "Fuel efficiency can be increased at least 25% with existing technology." - National Academy of Sciences 2001 Report
- Only 5% of all drivers actually use 4 wheel drive.
- Driving a 13mpg SUV rather than an average 22mpg car for one year will waste more energy than if you . . .
- Left your refrigerator door open for 6 years
 - Left your color television turned on for 28 years
 - Left your bathroom light burning for 30 years
- 65% of all CO² emitted into the atmosphere comes from road vehicles. CO² is the key contributor to global warming.
- "Conservation does not mean doing without. Thanks to new technology, it can mean doing better and smarter and cheaper." - President George W. Bush
- Votes to ratify Kyoto Global Warming Treaty: 178 to 1. Guess which country voted against cleaning up our environment?

If you feel you have been UNJUSTLY targeted, check this box and mail this ticket. Show the Government it needs to CLOSE THE LIGHT TRUCK LOOP HOLE and use existing technology to make a safe SUV that is environmentally responsible. All Americans have a right to breathe clean air.
